Numeracy & Literacy Resources for Primary Schools

Hands Up for Autopress Education

Bright, simple products

Designed by teaching professionals

Good quality resources at sensible prices

www.autopresseducation.co.uk

Welcome to our new brochure

Established in 1999, Autopress Education Ltd specialise in the design, manufacture and retail of numeracy and literacy resources for primary schools. We are proud of our product range and reputation and continue to develop and expand our range in line with curriculum and pedagogical changes.

We are known for keeping our designs clear and simple, bright and colourful. Our arrow cards, for example, are coloured to help children distinguish between the hundreds, tens and ones, and the place value charts and base ten equipment use the same colour scheme so that children can see the connection between them – see page 24 and 25 for details.

We pride ourselves on our attention to detail, in terms of product quality, pedagogical knowledge and classroom application. One of our directors has over twenty years experience in primary teaching and is a consultant in primary numeracy. The other director has a print and design background and has extensive experience in quality assurance. Together they are able to design and source products which are 'just right' as opposed to 'nearly right'. You will find, for example, that our children's digit cards are available in different colours so that children working at the same table can easily keep track of their own set. You will also notice that the fonts that we choose to use on all our products are those that reflect the way that children are taught to write numbers and letters.

We have an enviable reputation as national specialists in the provision of numeracy resources and we are proud of our association with Every Child Counts, the Maths Recovery Council UK and the Mata Sa Rang programme in Ireland. As well as manufacturing a wide range of printed resources, we are also pleased to bring you a carefully selected range of other products which have been chosen because they work particularly well alongside our own printed range, the beadbars and beadstrings for example, work well in tandem with our number line range. We have also managed to source several resources which are used very effectively in countries that have a reputation for excellence in mathematics teaching but are not available widely in the UK. The split-boxes on page 7 are an example of this.

We exhibit at the major education shows in the UK as well as attending as many regional conferences as possible. Details of upcoming events can be found on our website. We benefit greatly from the feedback and requests we get from teaching professionals at these events and this helps to inform future products. On page 5 and 21, you will find the frequently requested numbered counters and on page 45 you will find the alphabet version. We have also been asked by many customers to produce a tinted version of our whiteboard and you will now find this on page 36.

We are constantly reviewing and developing our product range in line with curriculum changes and teaching styles. In this brochure you will find a number of new products, for example, our new bar modelling whiteboard on page 37. Our part-whole cards on page 18 have proved very popular with schools developing a Shanghai / Singapore style approach to maths teaching.

We hope you enjoy browsing through our new brochure. If you have any questions or would like further information about any of the products, please do get in touch on info@autopresseducation.co.uk or on 0370 240 3565.

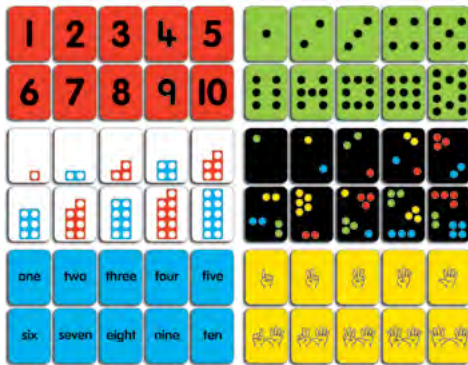

Other reasons to choose us:

- ✓ All our printed resources are manufactured in the UK
- ✓ Buy products in any quantity – no need to order class sets
- ✓ Minimum order value of just £30
- ✓ Low prices guaranteed
- ✓ Free delivery on orders over £100 (UK mainland)

1-20 Counting Frames

- Teacher's Demonstration Frame includes screen to 'hide' beads
- Child's Counting Frame is angled design as recommended by many consultants
- Useful to demonstrate addition /subtraction & double facts up to 20
- Also used in Maths Recovery Programmes to demonstrate Five-Wise and Pairs-Wise arrangements

Teacher's Demo Version (82cm) with removeable dry wipe screen	CF20	£28.25
Teacher's (82cm) with sliding wooden screen	CF24	£25.20
Child's (26cm)	CF21	£3.95

Demonstration 1-20 Bead Bar

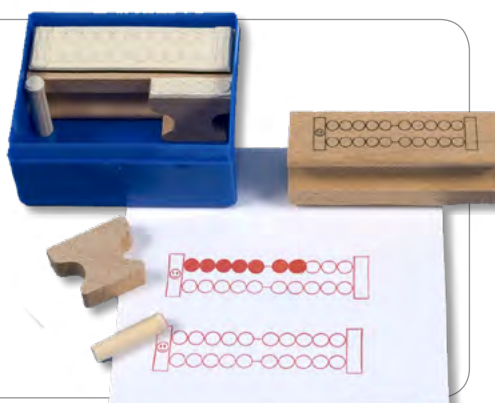

- Superb quality 'Jegro' bead bar
- For use on desk/table-top, or handheld
- Length 70cm

BB20 £23.50

Counting Frame Rubber Stamp Set

- Designed to be used to support the recording of counting frame activities
- Supplied in a plastic storage box, each set contains:

2 x counting frame stamps, 2 x stamps with 5 beads, 2 x stamps with 1 bead

Box of 6 Wooden Stamps	CF23	£14.25
Inkpad	BP24	£2.45

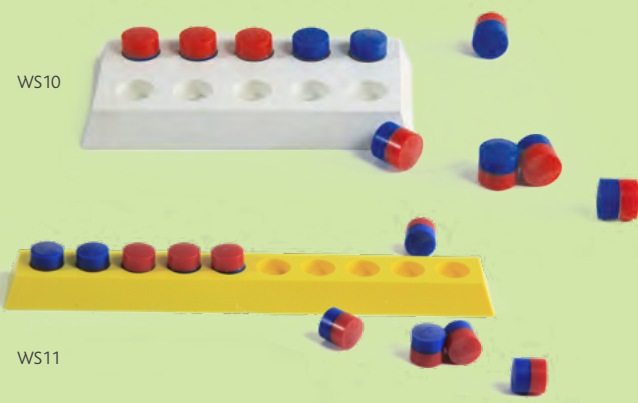

Counting Pegs to 10

- 10 double-ended red and blue pegs for calculations up to 10
- The board is available in two designs:

WS10 – two rows of five pegs, ideal for use alongside tens frames

WS11 – one row of ten, ideal for use alongside number tracks

WS10 (13 x 7cm)	£2.75
WS11 (22 x 3cm)	£2.75

**Beadstrings
& 0-100
Bead Bar**
see page 22

Counting Frame Book

- Invaluable 48 page guide to using the counting frame (Rekenrek)
- Includes a variety of activities and games
- Written by Angela Andrews & Diane Cushing-Liesen (Maths Recovery)

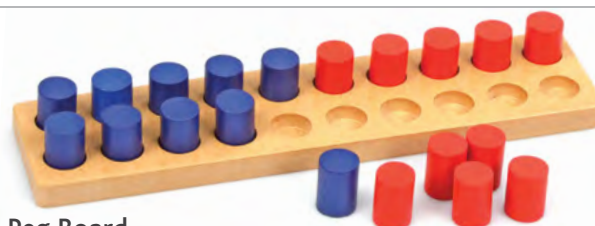

CF22 £13.95

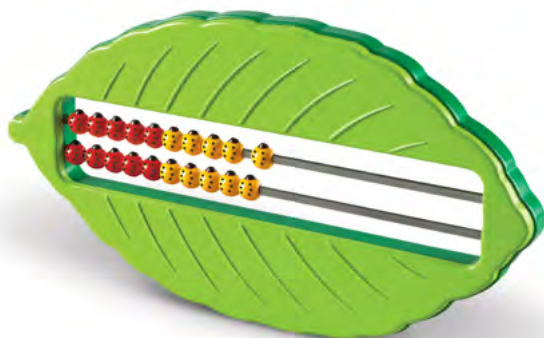

20 Peg Board

- 10 red and 10 blue pegs for calculations up to 20
- Works well alongside the tens frames and the counting frames to 20
- 25cm long

VC05 £4.25

Buggy Beads Counting Frame

- Colourful, ladybird counting frame
- Slide the bugs to count, add, subtract and develop an understanding of the power of ten
- Available individually, or as a set of four with an activity guide
- Frame size 20 x 11cm

Set of four LR12 £16.00
Each LR13 £4.75

Flip-string to 20

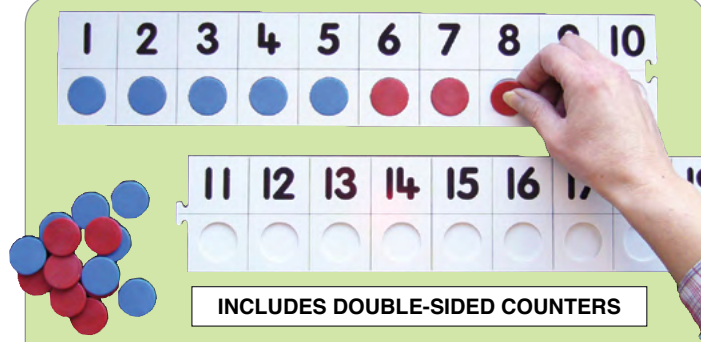

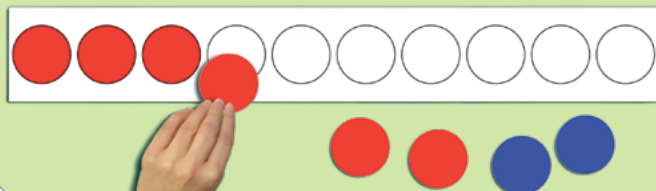

- Brightly coloured tiles arranged in colour groups of five to encourage subitising
- Printed with 1-20 on one side, blank on reverse, making them great for flipping over to hide and reveal numbers
- Supplied with threading string for ordering numbers and for pattern making

BS20 £4.75

Magnetic Counters Strip & 10 Counters

- A pair of magnetic strips each with five spots and ten double-sided magnetic counters that can be used to cover/reveal
- Can be used in 'Tens Frame' configuration with one strip above the other, or end-to-end as a 'Number Track'
- For use on steel surfaces (eg. magnetic whiteboard), magnetic counters can also be used independently
- Each strip 30 x 8cm

CS10 £7.95

INCLUDES DOUBLE-SIDED COUNTERS

Counters Track

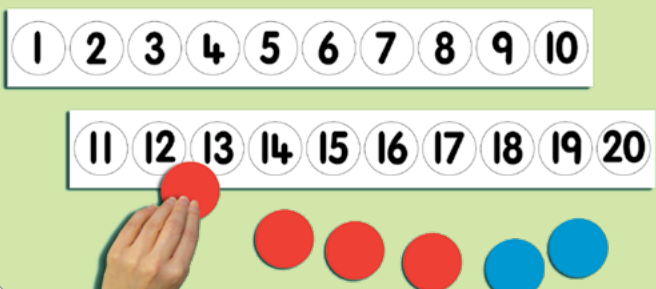

- Plastic counters track with 20 double-sided counters
- The track comes in two sections and can be used separately, joined together horizontally, or positioned one above the other

WS01 (80 x 8cm) £7.45

1-20 Magnetic Number Track & 20 Counters

- A pair of large magnetic strips numbered 1 to 10 & 11 to 20, and ten double-sided magnetic red/blue counters that can be used to cover/reveal
- Strips can be used end-to-end as a 1-20 Number Track, or individually (1 to 10 and 11 to 20)
- Can be used on steel surfaces (e.g. magnetic whiteboard), magnetic counters can also be used independently
- Counters and Highlighting Rings also available – see page 11

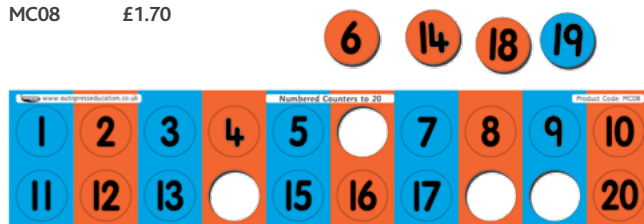

CS20 £15.50

1-20 Number Track with Pop-Out Counters

- Numbered on one side, plain on the reverse, the counters are useful on their own for a range of number games and activities but can also be used with the board for ordering, locating and early calculating activities
- Odd numbers are shown in one colour and even numbers in another
- Counters 2.4cm diameter, board 30 x 7cm

MC08 £1.70

**CHECK OUT OUR WEBSITE
FOR LATEST PRODUCTS!**

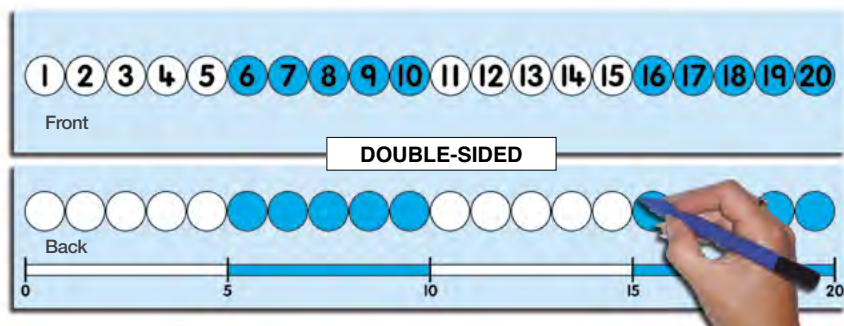

1-20 Bead Number Track

- Write-on, wipe-off surface
- Double-sided, numbered beads on front, empty beads and number line on reverse

Teacher's (70cm) NL04 £3.75
Child's (30cm) NL05 £0.50

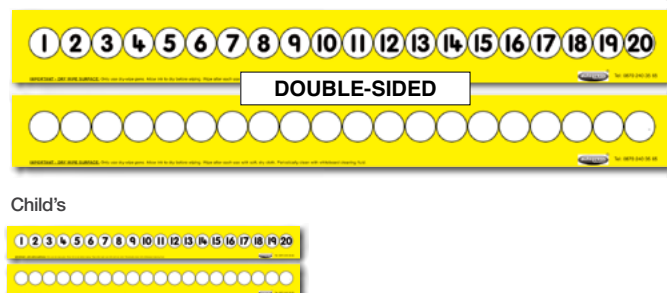

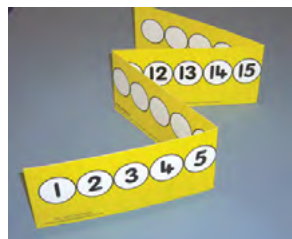

Teacher's

1-20 Folding Number Track

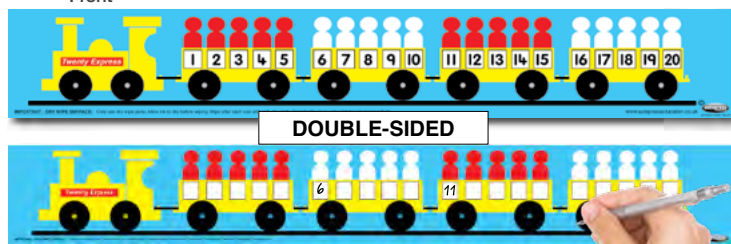

- A simple first number track showing numbers to twenty on one side and spaces on the reverse for children to locate and write numbers
- Can be folded so that only the required section of track is displayed
- Laminated for durability with a write-on, wipe-off surface

Teacher's (70cm) NL08 £2.85
Child's (35cm) NL09 £0.50

Child's

Front

DOUBLE-SIDED

Reverse

Twenty Express

- A locomotive designed for locating!
- Passengers are shown in colour groups of five to encourage children to identify quantities and locations without counting in ones
- Double-sided, reverse shows numbered train
- Also useful to practice writing the numbers to twenty
- Laminated for durability with a write-on, wipe-off surface

Teacher's (70cm) NL20 £3.00
Child's (39cm) NL21 £1.00

1-10 Cat Number Track

- Beautifully illustrated double-sided number track
- Front shown numbers 1 to 10, reverse side features empty spaces
- Write-on, wipe-off surface for use with dry-wipe pens
- Ideal for use with counters to hide/reveal numbers

Child's (30cm) NL15 £0.50

Child's

Teacher's

1-10 Bead Number Track

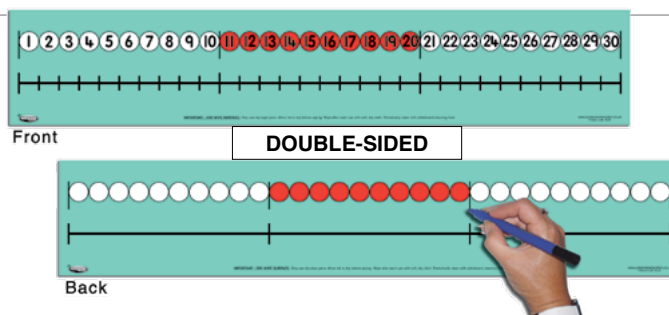

- Write-on, wipe-off surface
- Ideal for number recognition & ordering

Teacher's (70cm) NL06 £2.75
Child's (23cm) NL07 £0.35

Numbered Line / Track to 30

- A 0-30 version of our best-selling beaded number line
- Write-on, wipe-off surface for use with dry-wipe pens
- Double-sided, numbered bead track with corresponding line beneath on front, empty beads and number line on reverse

Child's (30cm) NL30 £0.50

Front

DOUBLE-SIDED

Back

Split Box to 20

This split box offers the ultimate flexibility:

1. Choose the quantity of balls you want to use (to 20) and 'lock' the others away in the third compartment or remove them completely if you wish to use all three compartments
2. Choose whether you wish to split the balls into two or three sections
3. Hide/Reveal one or two of the three sections

Example – using two sections

Fill the middle section of the box with 8 balls ('lock' the others in the left hand section)

Close the lid over the 'locked' balls and also close the lid over the middle section

Shake the box

You can see that 5 balls have landed in the right hand section. How many are in the middle section?

Uncover the middle section to see if you are right

$$\begin{aligned} \square + 5 &= 8 \\ \square &= 8 - 5 \\ \square &= 3 \end{aligned}$$

Example – using three sections

Fill the box with 20 balls and uncover the right hand section

Cover the middle section and then shake the box

You can see that 2 balls have landed in the left hand section and 12 balls have landed in the right hand section. How many are in the middle section?

Uncover the middle section to see if you are right

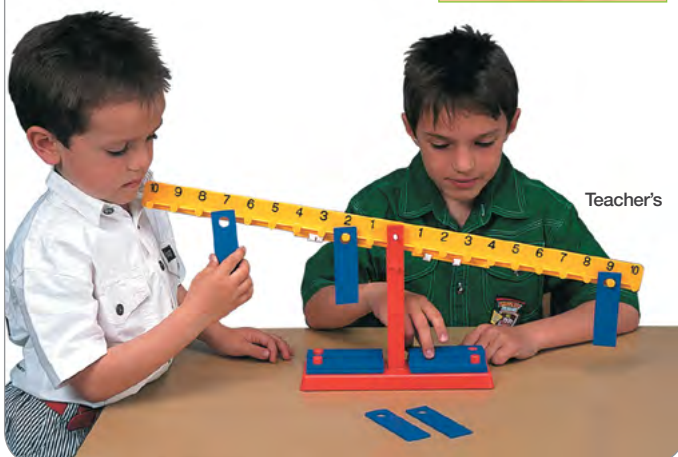

WS20 (12.5 x 7.5cm) £2.75

Equaliser Balance

- Excellent adjustable balance set develops a visual image of equivalence, including simple algebra
- Allows children to explore number facts, and greater than/less than concepts
- Each set contains 20 equal weights

Teacher's (65cm wide) EB01 £11.45
Child's (33cm wide) EB02 £3.85

Shake

Calculate

Check

Partitioning Tree

- Shake the tree and ten apples are split into two collecting tubes, marked with a scale of 1 to 10
- The front of the tree only displays the contents of one tube and children are invited to work out how many are in the hidden tube
- On the other side of the tree, both quantities are displayed so that children can check to see if they were right!
- 'Apples' can be removed so that other number bonds can be practised

Partitioning Tree (12cm high)

VC01

£2.75

Partitioning Tree Activity Card Set

- Flash cards related to the partitioning tree
- 'Imagine that there were 7 apples on the tree, you can see 4 of them, how many are hidden?'
- Ideal for practising number bonds to 10
- 44 plastic cards in storage box

VC13

£4.25

Partitioning Tree Rubber Stamp

- A useful way for children to record their work with the partitioning tree
- Height 7cm

Rubber Stamp VC02 £3.95
Inkpad BP24 £2.45

'Split' Boxes

- Excellent visual aids to demonstrate partitioning of numbers to 10
- When shaken, a 'ridge' randomly separates the balls into sets, a sliding cover then enables one set to be hidden or revealed
- Helps children to learn number facts to 10
- Balls can easily be added or removed from box

Teacher's split box (36cm wide) SB01 £24.50
Child's split box (7cm wide) SB02 £2.35

Child's

Teacher's

Number Rods to 10

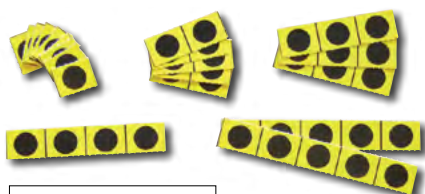

- Set of 126 high quality counting rods from 1 to 10
- Each rod is divided into 1cm increments and can therefore also be used for early measuring activities
- Rods are made from RE-Wood®, a recycled 'natural product'
- Each set is supplied in a drawstring bag

Quantity	Colour	Rod Length
36		1cm
18	Red	2cm
18	Green	3cm
12	Pink	4cm
8	Yellow	5cm
6	Dark Green	6cm
6	Black	7cm
6	Brown	8cm
6	Blue	9cm
10	Orange	10cm

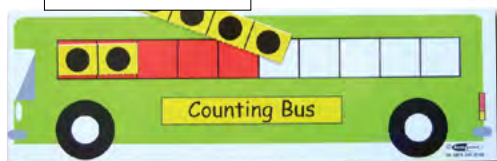

WS02 £13.75

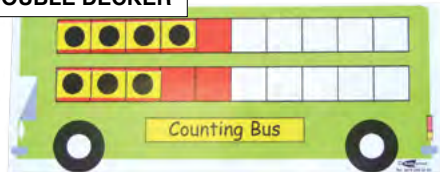

Exclusive offers available when ordering online
www.autopressededucation.co.uk

SINGLE DECKER

DOUBLE DECKER

Counting Bus

- Children put passengers (spots) on and off the bus as a bus story is told by the teacher
- The kit is designed to encourage children to see single digit numbers as discrete quantities rather than to count in ones, for example, they may put 6 passengers on the bus as a group of 4 and a group of 2 or as two groups of 3, rather than as 6 individual ones
- The white and red coloured windows encourage children to connect this image with the beaded images and with the 'five-wise' and 'pairs-wise' arrangements
- Available as a single decker to work with numbers to 10 or as a double decker for numbers to 20
- Includes teaching guide and sufficient material for a group of 6 children

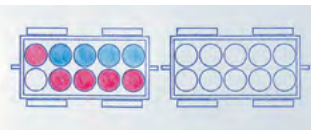

Single decker - set of 6 (7.5 x 24.5cm) CB10 £11.10
 Double decker - set of 6 (9.5 x 24.5cm) CB20 £14.10

Counting Train

- Delightful wooden train includes locomotive, 2 carriages and 20 'passengers'
- Each carriage carries up to 10 passengers
- Ideal for young children to explore early number concepts through play
- Length 50cm

CT20 £18.50

Counting Train – Rubber Stamp

- Create activity sheets to use alongside the counting train
- Encourage children to use to aid their recording
- Size: 6.5 x 3.5cm

Counting Train Inkpad CT22 BP24 £5.25 £2.45

Counting Train – Activity Pack

- Activity sheets to use alongside the Counting Train
- 32 photocopiable sheets covering: counting, sorting, addition, subtraction

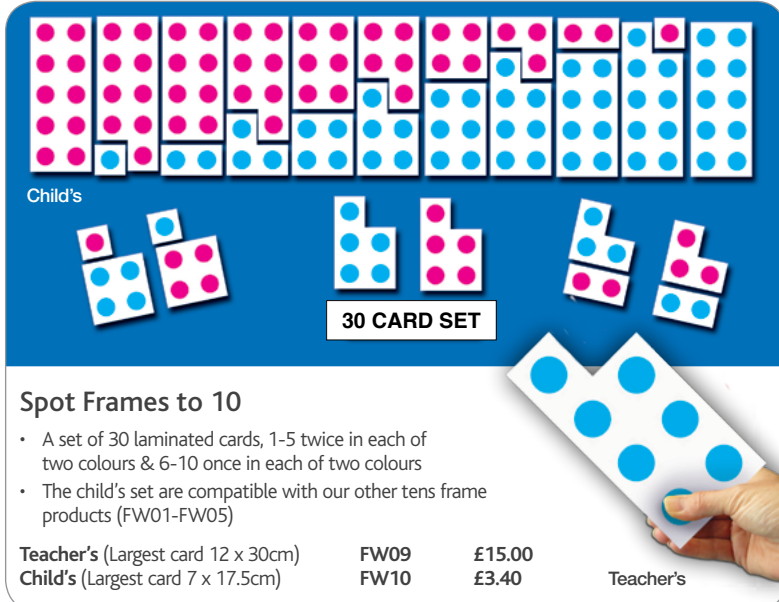

CT21 £7.50

Number Frames

Number frames encourage children to visualise numbers and help them to compare one quantity with another. They emphasise the pattern within the number system and make the concept of odd and even numbers very clear.

The frames encourage ordering of numbers as well as developing concepts of more / fewer and are ideal for teaching number bonds and demonstrating early calculation strategies.

Ideal to be used for quantity recognition in maths recovery programmes and for use alongside the counting frame.

Child's

30 CARD SET

Spot Frames to 10

- A set of 30 laminated cards, 1-5 twice in each of two colours & 6-10 once in each of two colours
- The child's set are compatible with our other tens frame products (FW01-FW05)

Teacher's (Largest card 12 x 30cm)	FW09	£15.00
Child's (Largest card 7 x 17.5cm)	FW10	£3.40

Teacher's

Ten Frame Towers

- Includes 65 frames, 2 dice and an activity guide

SK03	£24.00
-------------	---------------

10 on the Spot!™ Making Ten Game

- This bingo-style game is not about matching, it's about making 10!
- Cards feature ten-frames on one side and numbers on the other for more advanced players
- For 2-6 players
- Cards measure 20 x 15cm

LR07	£9.95

PACK OF 10 CARDS

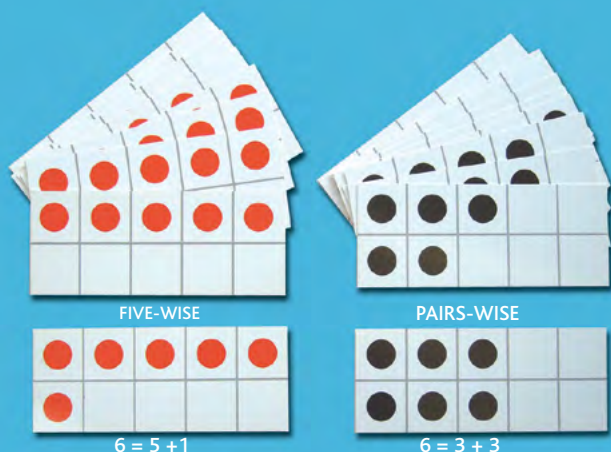

COUNTERS AVAILABLE SEPARATELY
SEE PAGE 11

Tens Frames - Blank Cards

- Blank tens frames for children to show 'five-wise' and 'pairs-wise' quantities and to explore addition and subtraction facts to 10
- Set of 10 cards (size: 7 x 17.5cm)

FW02 £2.00

Tens Frames - Five-Wise & Pairs-Wise Cards

- Each number to 10 is shown on two separate cards – one as a 'five-wise' arrangement and one as a 'pairs-wise' arrangement
- Set of 20 cards (size: 7 x 17.5cm)

FW01 £4.00

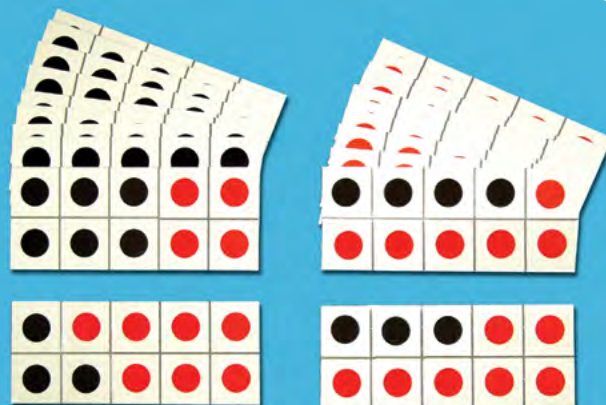

PACK OF 20 CARDS

Tens Frames - Tens Cards

- A pack of 20 full tens frames for use alongside FW01 (no's to 10), to demonstrate place value, addition and subtraction of two-digit numbers
- Set of 20 cards (size: 7 x 17.5cm)

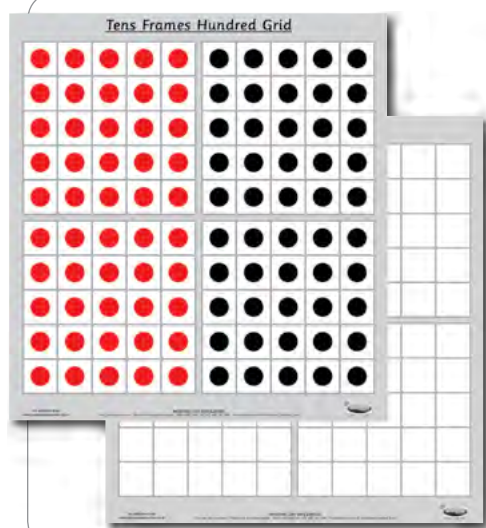

FW03 £4.00

Tens Frames – Partitions Of 10 Cards

- A set of fifteen cards showing number pairs that make ten (11 x five-wise, 4 x pairs-wise)
- Each card 7 x 17.5cm

FW04 £3.00

Tens Frames – Hundred Grid

- Double-sided poster featuring a blank grid onto which the tens frames can be used to construct quantities to 100. The reverse side shows red and black spots, arranged in colour groups of 25 to aid visual recognition. This side is particularly useful for identifying quantities to 100 and for demonstrating addition and subtraction strategies
- Size: 42 x 39cm

FW05 £4.25

**FOR USE WITH
DRY-WIPE PENS
OR COUNTERS**

Tens Frame Board with Counters

- A pack of two tens frames made of rigid board, each with 10 removable red/yellow and black/white double-sided counters

FW07 (2 boards, 7 x 16cm) £1.30

**BEST
SELLER**

Double-Sided Counters (100)

- 100 double-sided high-quality counters
- Ideal used with the blank 'five-wise' and 'pairs-wise' frames and alongside the beaded images of number
- Very useful for seeing the pattern in number facts
- Available in red/blue or red/yellow
- 25mm diameter

CS11	Red/Blue	£7.45
CS12	Red/Yellow	£7.45

**EXTRA THICK
(5MM) - EASY
TO PICK UP!**

Counter Tracks

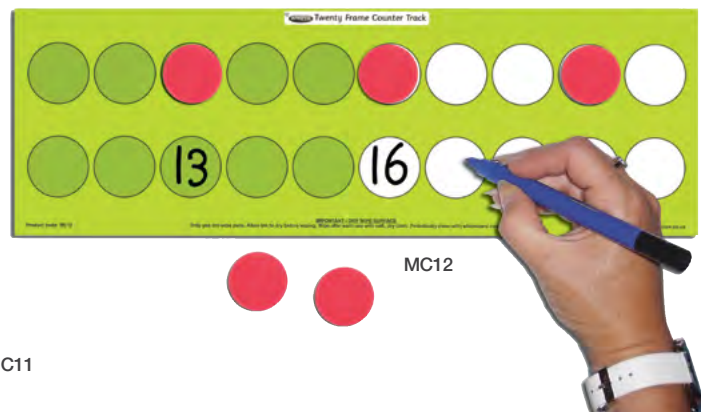

- Write-on, wipe-off surface
- Ideal for use alongside our Five-Wise & Pairs-Wise and Tens Frame resources
- Counters not included – available separately (CS11 & CS12)

MC11 Tens Frame Counter Track (18 x 10cm)	£0.45
MC12 Twenty Frame Counter Track (30 x 10cm)	£0.75

More tens
frame products

Counters

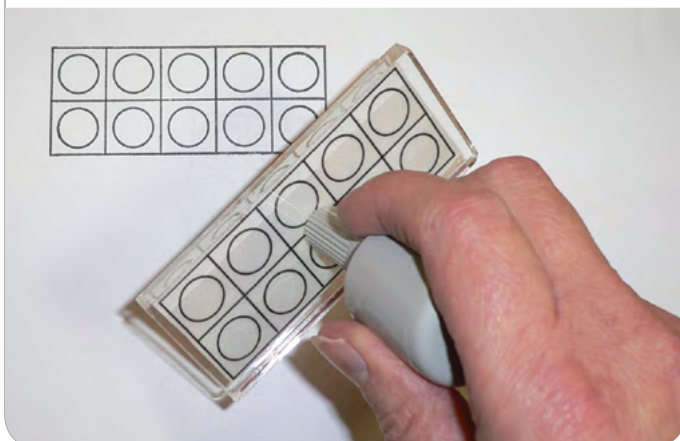

Rings

Tens Frame Rubber Stamp

- Designed to be used alongside our tens frames card sets and counting frames to enable teacher's to easily and quickly generate worksheets and to support children in recording their work
- 11mm circles, ideal size for use with Bingo dabbers!

Rubber stamp (4cm x 6cm) FW06 £5.95
Inkpad BP24 £2.45

Number Rumbler Card Set

- Pack of cards with numbers represented in different ways. For example, 12 could be $4+4+4$ or 3×4 or drawn out as twelve dots
- Number Rumbler gives a better sense of how numbers relate to one another and helps to develop 'number sense' as well as an understanding of number facts
- Instructions included for a variety of games

NR99 £7.80

56 CARD SET

One to Ten Stamp Set

- A superb quality wooden stamp set showing quantities from 1 to 10
- Arrangement of dots is compatible with tens frame representations and can be used either vertically or horizontally
- Once stamped, the spots can be coloured with bingo dabbers or crayons, to emphasise two or more quantities being combined to create a total, or patterns, such as odd and even number
- Supplied in a 'Really Useful Box' for storage
- Ink pads available separately (BP24)
- Size of largest piece: 10 x 4cm

FW12 £22.50
Inkpad BP24 £2.45

NEW!

Number Frames Chart

- A clear and simple number track displaying each number to 10 as a digit, a word and a number frame
- Emphasises how one number relates to others (*5 is one more than 4, 7 is two less than 9, 8 is double 4 etc*), and gives a clear image of odd and even numbers, which is further emphasised by the colour scheme
- Size 12 x 70cm

NL18 £3.40

NEW!

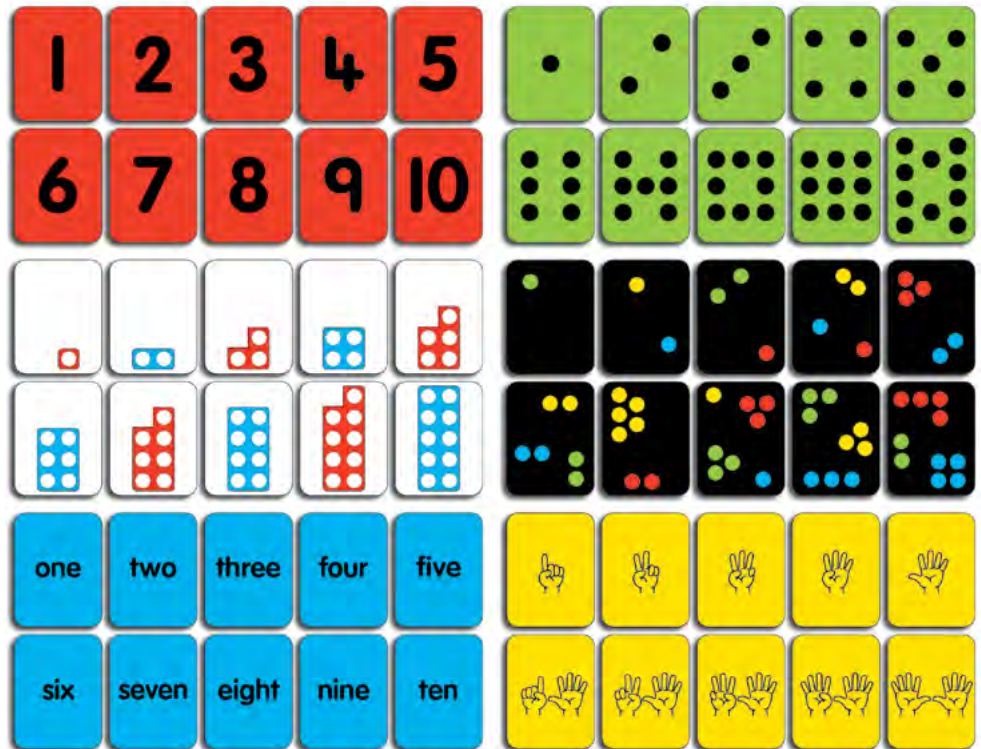

NEW!

Images to Ten Card Set

- A comprehensive set of images showing different representations of number to ten
- Useful for a wide range of games and activities including matching and ordering, as well as number and quantity recognition (subitising)
- These images help to broaden children's understanding of numbers to ten and support them in making connections between different representations
- 60 card set, each sub-set is colour-coded on reverse for easy identification
- Each card 7.5 x 6.5cm

MC16 £3.40

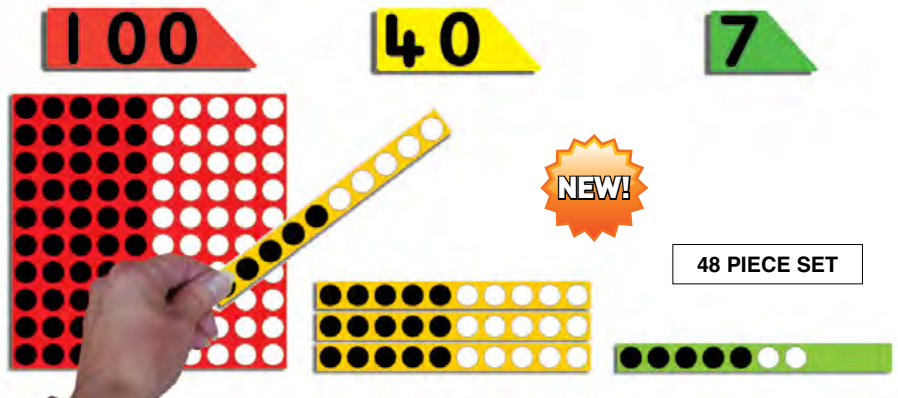

60 CARD SET

Base 10 spot cards

- A 48-piece set to support children's understanding of place value
- The cards give a visual model of the value of two and three digit numbers
- Useful for comparing quantities and supporting the transition from mental to written calculation
- The pattern of dots encourages subitising and the colour-change helps with instant recognition of five, and other quantities in relation to groups of five
- Set contains enough equipment to make any number up to 999 and to model any two-digit addition or subtraction
- Ideal for use in Maths Recovery Programmes
- Largest piece 16.5 x 16.5cm, Spot diameter 1.3cm

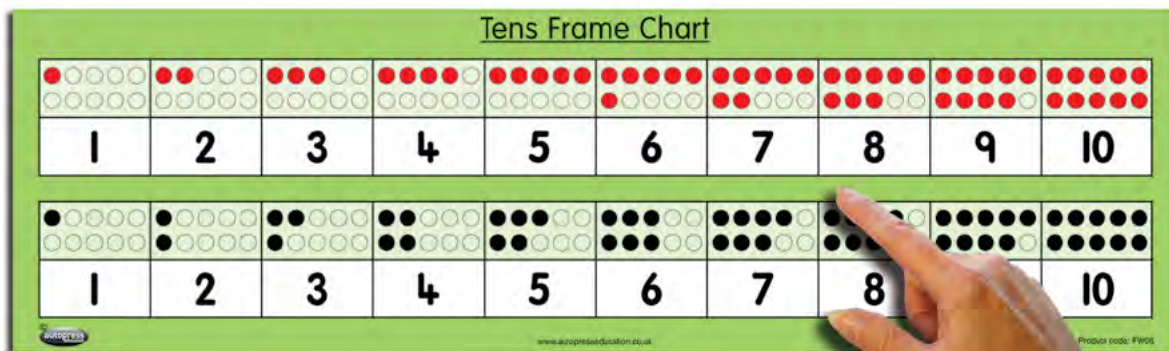

PV28 £7.45

Tens Frames Chart

- A useful reference showing each number to 10 in two different ways – one as a 'five-wise' arrangement (red spots) and one as a 'pairs-wise' arrangement (black spots)
- Ideal to be used for quantity recognition in maths recovery and mastery programmes and for use alongside the counting frame
- Size 14.5 x 39.5cm

FW08 £2.25

These kits have been created with the guidance and approval of the Maths Recovery Council UK, and provide the essential resources needed to run maths intervention programmes

MR01	One to one kit (Purple Book)	£105.00
MR02	Group kit (Purple Book)	£206.00
MR03	Group kit (Red Book)	£213.00

The collage features a variety of educational materials:

- Top Left:** A wooden bead string with red and white beads, and a small wooden board with a grid.
- Top Center:** A wooden board with a grid of numbers 1 to 20.
- Top Right:** A magnetic number line with numbers 1 to 20, a magnetic number card with the number 10, and a magnetic number card with the number 100.
- Middle Left:** A large number line with numbers 0 to 100, and a smaller number line with numbers 0 to 100.
- Middle Center:** A ten-frame with numbers 1 to 10, and a ten-frame with numbers 1 to 10.
- Middle Right:** A magnetic number card with the number 10, a magnetic number card with the number 100, and a magnetic number card with the number 1000.
- Bottom Left:** A card stand with a grid of numbers 1 to 10, and a card stand with a grid of numbers 1 to 10.
- Bottom Center:** A tray of beads, and a tray of beads.
- Bottom Right:** A spiral-bound number line with numbers 2, 4, 6, 8, and a spiral-bound number line with numbers 2, 4, 6, 8.

Numeracy Intervention – Books & CDs

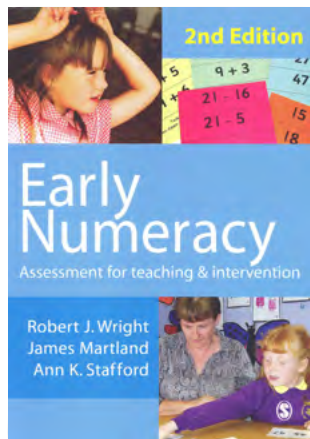

The books in this Maths Recovery series address the teaching of early number and whole number arithmetic and fractions, providing practical help to enable schools and teachers to give equal status to numeracy intervention and whole class teaching. **Robert J Wright et al**

BK01 Teaching Number: Advancing Children's Skills and Strategies

Teaching Number outlines teaching principles and procedures to advance children to more sophisticated strategies for solving arithmetic problems. A comprehensive resources CD is also included.

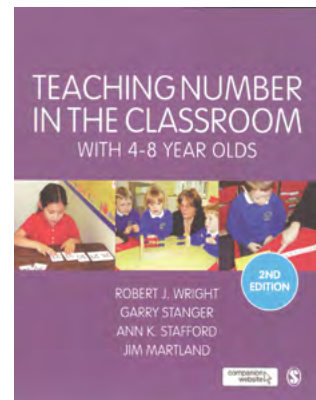

BK01 £27.95

BK02 Early Numeracy: Assessment for Teaching and Intervention

Early Numeracy demonstrates how to assess children's mathematical knowledge, skills and strategies in addition, subtraction, multiplication and division.

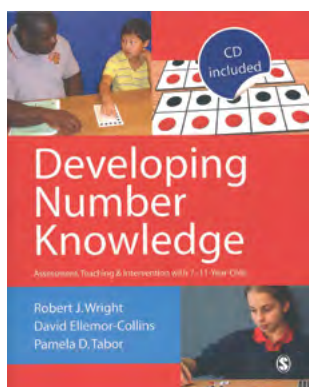

BK02 £27.95

BK03 Teaching Number in the Classroom with 4-8 year-olds

This book shows how to extend the work of assessment and intervention with individual and small groups to working with whole classes. Access to a companion website with video demonstrations and printable resources is also included.

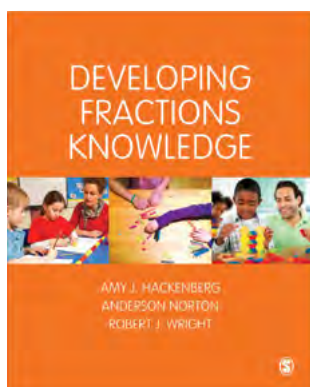

BK03 £25.95

BK04 Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds

Developing Number Knowledge provides more advanced knowledge and resources for teachers working with older children. A comprehensive resources CD is also included.

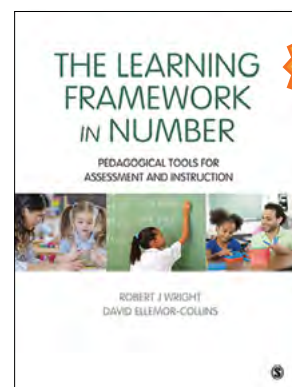

BK04 £25.95

BK05 Developing Fractions Knowledge

Developing Fractions Knowledge provides a detailed progressive approach to assessment and instruction related to children's learning of fractions.

BK05 £24.95

BK06 The Learning Framework in Number

This latest book gives a complete research-based framework for assessment, instruction and intervention in whole number arithmetic across the primary phase.

Access to a companion website with printable resources for the assessment and teaching tasks..

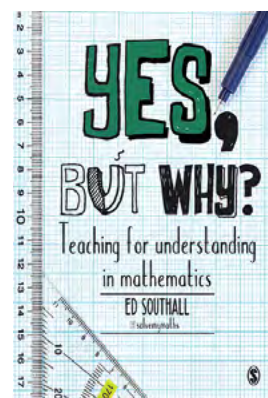

BK06 £27.99

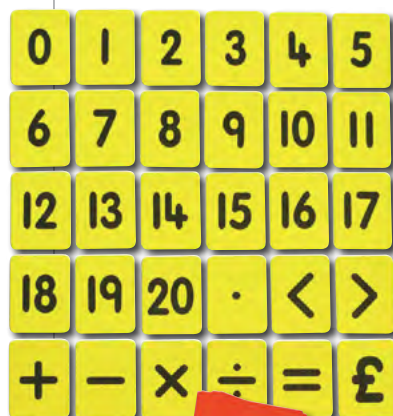

Yes, But Why? Teaching for understanding in mathematics – Ed Southall

Getting the right answers in maths is only half the problem. Understanding why what you're doing works is the part that often stumps children and teachers alike. Does maths feel like a collection of random rules and steps that somehow lead you to an answer? Don't worry you're not alone.

Ask yourself: Why do we have odd and even numbers? Why do two negative numbers multiply to make a positive? Yes, but why? answers all of your questions, and sheds light on the hidden connections between everything in mathematics at school. Maths makes sense. It always has, but until now maybe no-one ever showed you.

BK07 £22.99

0-20 Card Set

- 30 card set including mathematical signs for number sentence making
- Teacher's set double-sided, reverse shows compliment to 20 (e.g. 14 and 6, 18 and 2 etc.)
- Child's size available in 4 bright colours

Teacher's (12 x 17cm)	MC03	£8.95
Child's Orange (5 x 6.5cm)	MCT4	£1.35
Child's Blue (5 x 6.5cm)	MCB4	£1.35
Child's Green (5 x 6.5cm)	MCG4	£1.35
Child's Yellow (5 x 6.5cm)	MCY4	£1.35

REVERSE

Blank Write-On, Wipe-Off Card Set

- Double-sided cards for use with dry-wipe pens
- Can also be used with permanent markers (non-erasable)
- Ideal to use in conjunction with our printed card sets for sentence making and word building

BC01
(30 cards, each 5 x 6.5cm)
£1.20

30 CARD SET

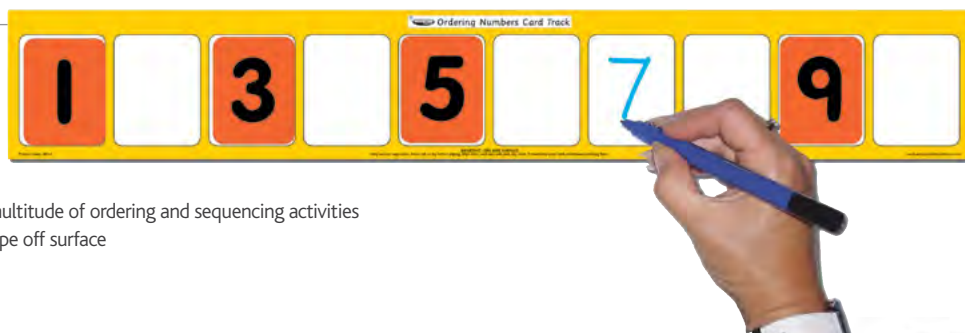

Ordering Numbers Card Track

- For use with our range of digit cards for a multitude of ordering and sequencing activities
- Laminated for durability with a write on, wipe off surface
- Folds for easy storage

MC10 (58 x 9cm)

£1.20

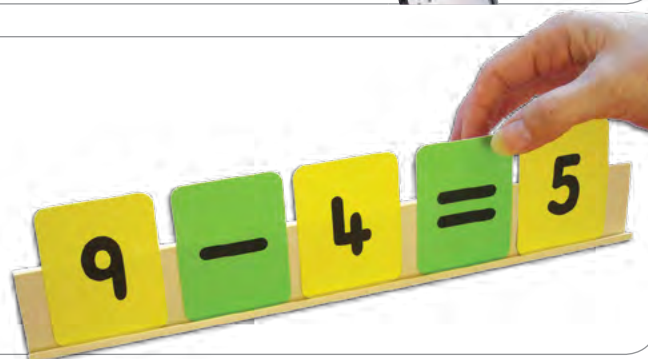

Card Stand

- Tough 30cm plastic card stand
- Angled design for ease of use and to aid display
- Stackable for easy storage
- Ideal for word building and sentence making using our literacy & maths card sets

CS01

£1.85

10 FLIP

'Hide And See' Flip Stand

- Write-on, wipe-off flip stand for use in a variety of curriculum areas but especially useful in numeracy for work on number order, sequences and patterns
- For maximum versatility both the easel and the flip covers have a dry wipe surface

10 Flip

Overall size 42 x 11cm (paddle width 4cm)

FS01 £5.95

5 Flip

Overall size 42 x 11cm (paddle width 8cm)

FS02 £5.45

'Hide And See' Magnetic Flipstand

The magnetic version of our original write-on, wipe-off flipstand can still be used as a blank dry-wipe surface for work on number order, sequences and patterns, but the magnetic feature also allows a number of printed 'Flipstrips' to be attached.

For maximum versatility both the easel and the flip covers have a dry wipe surface.

Flipstrips

The Flipstrips have a magnetic backing making them easy to attach and remove from the magnetic flipstand. They come in a number of designs which all lend themselves to 'hide and reveal' activities.

AVAILABLE ONLINE**

Part-Whole Cards

- An excellent resource for exploring and recording number facts and relationships.
- The cards are dry-wipe, for use with whiteboard pens, but the spaces are also large enough for use with digit cards or manipulatives
- Laminated for durability with a write on, wipe off surface

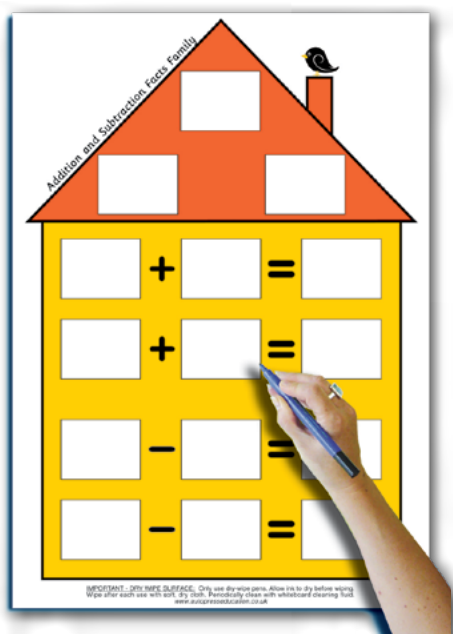

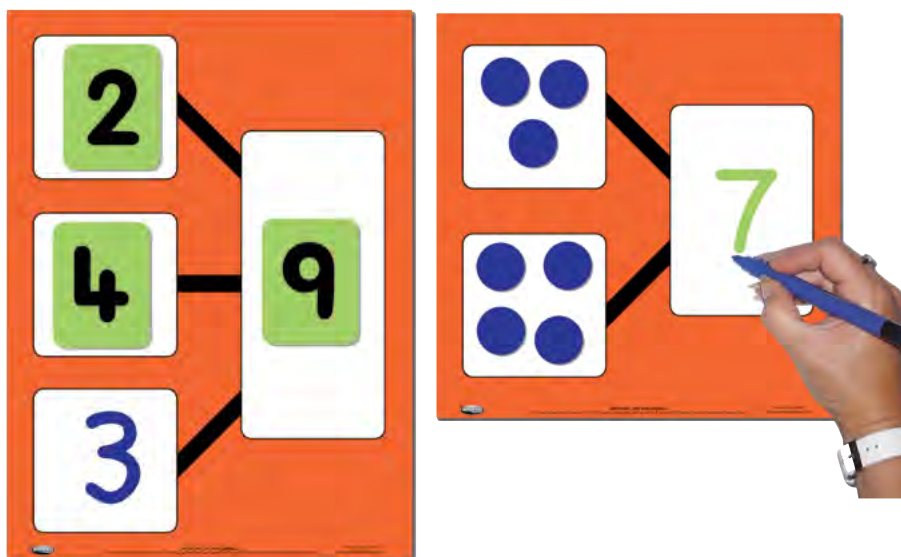

Two Parts/Whole (21 x 21cm)

NB02 £0.75

Three Parts/Whole (28 x 21cm)

NB03 £1.00

**Bar Modelling
Whiteboard
Available**
see page 37

Teacher's poster

Number Facts Houses

- A fun way to explore the relationships between numbers and to reinforce 'families' of facts
- Three 'related' numbers are written in the spaces on the roof and children use these to complete the four number sentences to show how the numbers can be used to make a set of four correct $+$ / $-$ or \times / \div statements
- Additional houses can be placed either side to show 'neighbouring facts' and the three sizes can be used alongside each other to show how facts can be applied to larger and smaller numbers
- Laminated for durability and dry-wipe, for use with whiteboard pens

Addition and Subtraction

Child's - small (14 x 9cm) NB04 £0.40

Child's - medium (24 x 19cm) NB06 £1.00

Teacher's poster (49 X 35cm) NB08 £3.85

Multiplication and Division

Child's - small (14 x 9cm) NB05 £0.40

Child's - medium (24 x 19cm) NB07 £1.00

Teacher's poster (49 X 35cm) NB09 £3.85

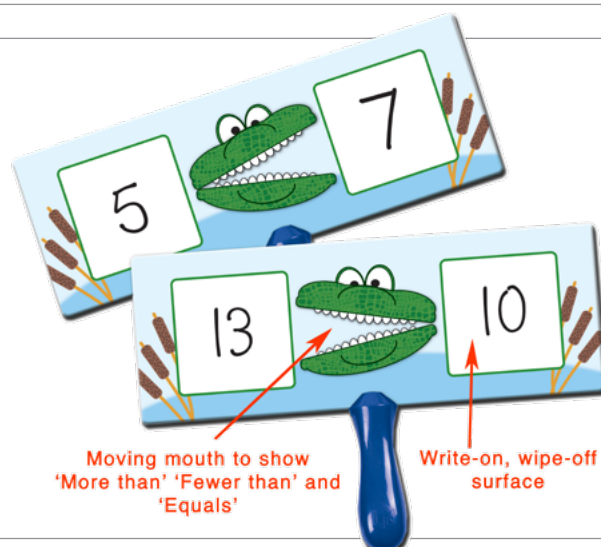

Child's - small

Greater Gator Answer Boards

- Children write two numbers or expressions, then move the hinged gator "jaw" to show which number is greater than, fewer than, or equal to the other number!
- The reverse side has room to write relational symbols ($<$, $=$ and $>$)
- Board size 28 x 10cm

Set of four with teaching guide LR14 £14.50

Each LR15 £4.25

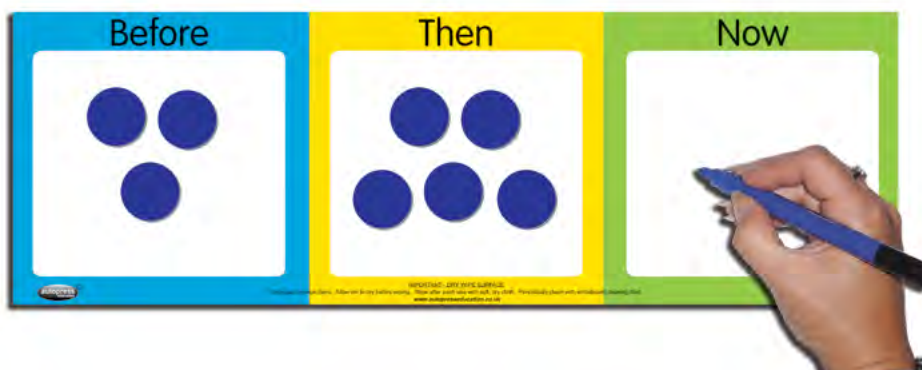

Moving mouth to show
'More than' 'Fewer than' and
'Equals'

Write-on, wipe-off
surface

Before-Then-Now

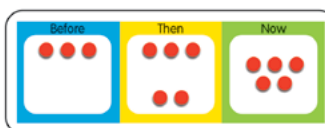

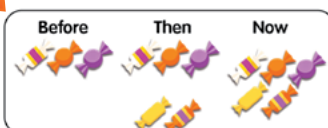

- Use with manipulatives, images and abstract notation, to create stories and explore problems involving addition and subtraction.
- As used by NCETM in their Mastery Professional Development materials on additive reasoning
- Also very useful for exploring the inverse nature of addition and subtraction, and for introducing 'empty box' problems
- Dry-wipe surface for use with whiteboard pens.

Teacher's	MC13	70 x 21cm	£2.95
Child's	MC14	29.5 x 9.5cm	£0.75

NEW!

Before, Joe had three sweets.
Then, his Grandma gave him two more.
Now, he has sweets.

$$\begin{array}{r} 3 \quad + \quad 2 \quad = \quad 5 \\ \hline 3 + 2 = 5 \end{array}$$

Slider

- Versatile resource for hiding and revealing numbers, symbols, words and phonemes
- Supplied with two narrow 'sliders' and one wide 'slider', each with a coloured side and a side with a dry-wipe box
- Particularly useful for 'missing number / empty box' problems and pattern spotting in maths and for sentence and word construction in literacy
- Rigid whiteboard for use with dry wipe pens

SL01 (42cm x 6.5cm) £2.35

WRITE-ON, WIPE-OFF SURFACE

Number Fact Boxes

- Each box contains 81 double-sided wooden tiles, ideal for practising quick recall of number facts and with a self-checking facility
- Each tile displays a calculation on one side and the answer on the reverse
- Supplied in a wooden storage box
- Each tile: 3 x 3cm

TIMES TABLES

Addition and Subtraction

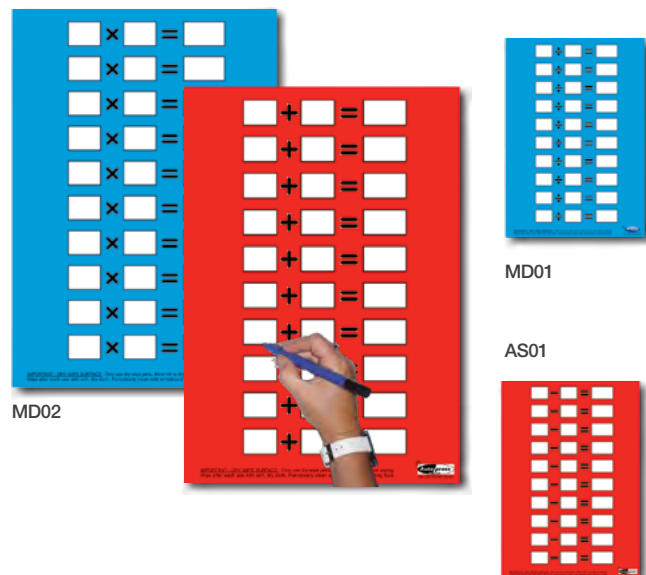

This set features a combination of single digit addition and subtraction

AS03 £7.25

Times Tables

A set featuring multiplication facts up to 9 x 9

MD03 £7.25

Number Facts Practice Posters & Cards

- Double-sided, dry-wipe cards for practising number facts
- Ideal for mental and oral starters
- Enables groups or individuals of differing abilities to practice different sets of facts

Addition/Subtraction card (16 x 12cm)	AS01	£0.50
Multiplication/Division card (16 x 12cm)	MD01	£0.50
Addition/Subtraction Poster (70 x 50cm)	AS02	£7.50
Multiplication/Division Poster (70 x 50cm)	MD02	£7.50

Multiplication Bookmarks & Fan

Fantastic new resource, available either as a fully assembled fan, or as a set of bookmarks that children can collect as they learn.

- The tables are colour-coded to emphasise related facts and encourage children to make connections.

Multiplication facts related by doubling and halving (for example, the products in the 6x table are double the products in the 3x table)

5, 10 2, 4, 8 3, 6, 12

Multiplication tables that have a clear number pattern

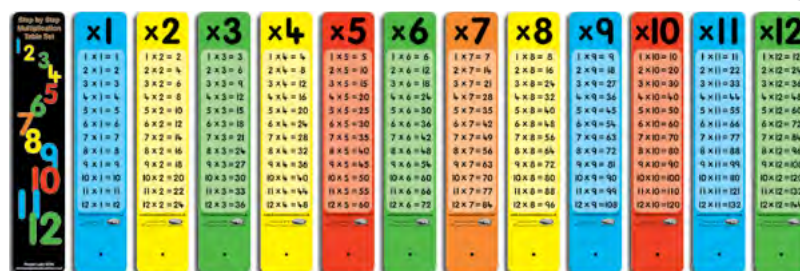

1, 9, 11

The odd one out that just has to be memorised or derived through commutativity (for example, using $4 \times 7 = 28$ to know $7 \times 4 = 28$)

7

- Our bookmarks and fan support whichever representation of multiplication is used by showing one version on one side and the other on the reverse. In order that children do not confuse the two different interpretations, one is printed with $x1 \ x2 \ x3$ (in black font), at the top of each card, the other is printed with $1x \ 2x \ 3x$ (in white font)
- The fan has a removable pivot screw should you wish to disassemble it and re-order the petals.
- The bookmarks are hole-punched for use with a treasury tag so that children can easily add to their collection as their knowledge develops

MT06 24cm Multiplication Tables Bookmarks £3.55
MT08 24cm Multiplication Tables Fan £3.85

Bookmarks

DOUBLE-SIDED

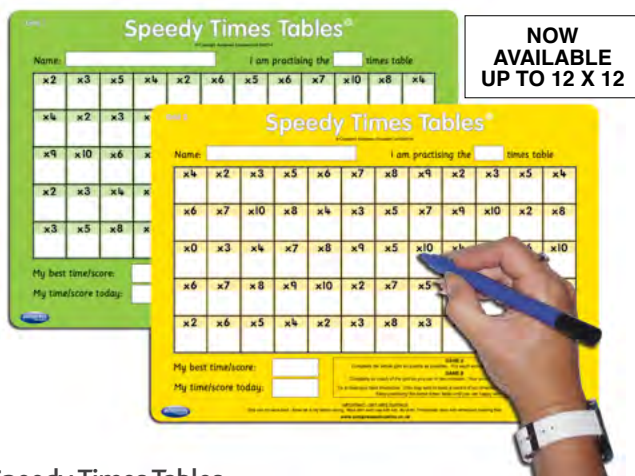

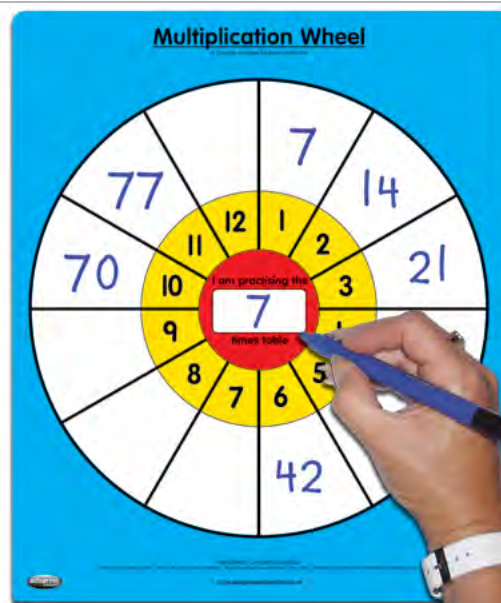

Fan

Multiplication Wheel

- Dry-wipe card for practising multiplication facts in numerical or random order
- Enables groups or individuals of differing abilities to practise different sets of facts
- Children are encouraged to beat their own time/score
- Ideal for use with 1-12 dice or cards (for random order practice)
- Dry wipe pens sold separately
- Each card 21 x 25cm

MS09 £1.00

NEW!

Speedy Times Tables

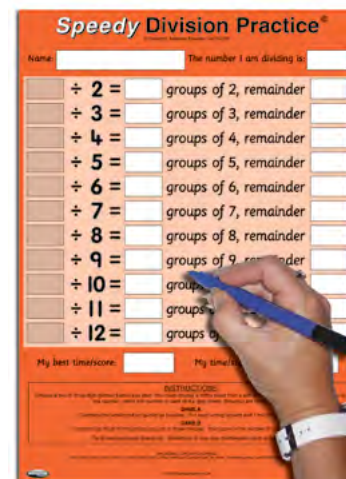

- Pair of dry-wipe cards for practising multiplication facts in random order
- Enables groups or individuals of differing abilities to practise different tables
- Pack contains two grids, each arranged differently to prevent copying!
- Instructions included on each card
- Size 16 x 24cm

MT03 (2 grids to 10 x 10) £1.70
MT05 (2 grids to 12 x 12) £1.70

Speedy Division Practice

- Drywipe cards for practising division by grouping
- Enables groups or individuals of differing abilities to work with divisors of various sizes
- Instructions included
- Size 16 x 23cm

MT04 (to 10 x 10) £1.00 each
MT07 (to 12 x 12) £1.00 each

- 6 blank 'write-on, wipe-off' cards & pen
- For use with 1-100 Bead Bar & Large/Giant Bead Strings

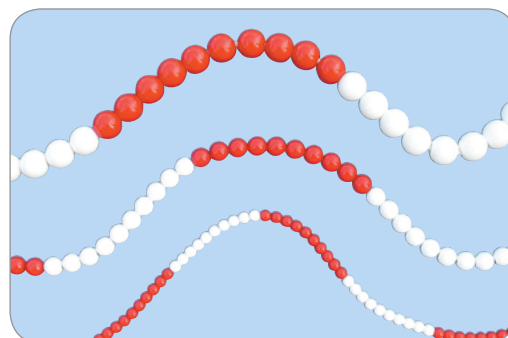

BB99

£6.75

Why choose Autopress Bead Strings?

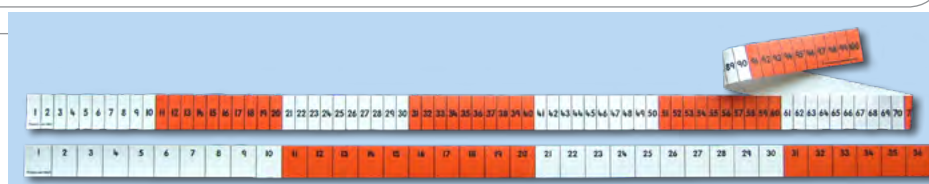

- Superb quality - we believe our bead strings are the best available
- Beads made from solid polished resin - pleasant to handle, no flaking paint, and no sharp bits!
- Coloured cord improves visibility of beads, and retains a clean appearance.†
- Beads fit snugly on cord, enabling bead string to be manipulated without disrupting position of beads.†
- Cord ends heat-sealed to prevent fraying
- Unlike smaller 'barrel' beads, the size & shape of our children's beads makes them easy to handle

Base Ten Number Line

- A very simple but useful, double-sided, number line that is compatible with base ten materials (Tens and Units)
- Enables connections to be made between different representations of quantity and gives children a very quick visual image of the value of the numbers they are working with
- Particularly useful for directly comparing two quantities and understanding the concept of subtraction as "finding the difference"
- 105 x 11cm

NL17 £6.10

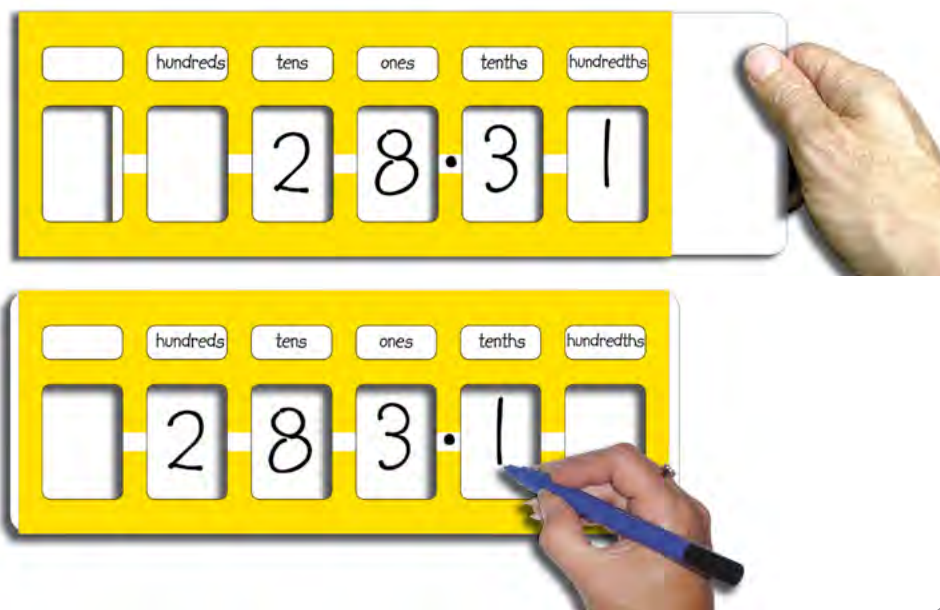

Place Value Slider

- Rigid whiteboard with dry-wipe sleeve to support the exploration of place value
- A dry wipe pen can be used on the board to enter numbers into the windows, and can also be used on the sleeve to add place value headings, and a decimal point/comma when necessary
- The slider gives a better understanding of place value with whole numbers and decimals and is the perfect resource for addressing misconceptions, particularly the effect of multiplying and dividing by the powers of ten
- 29.5 x 10.5cm

PV31

£3.65

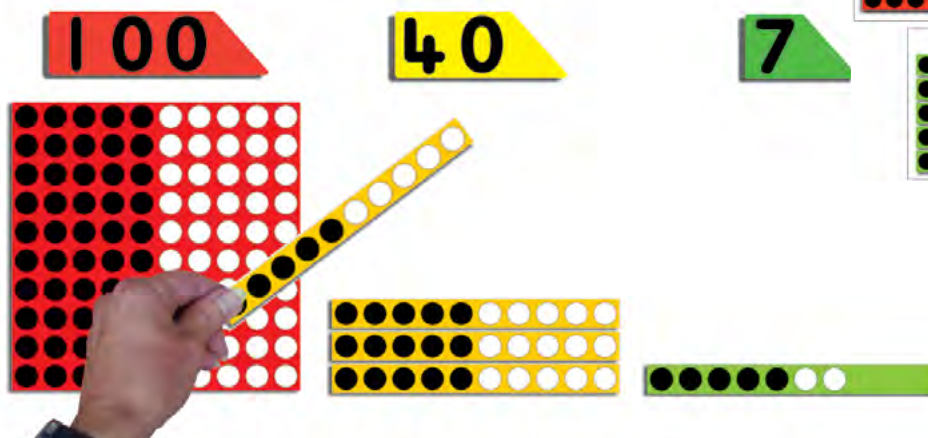

NEW!

Base 10 spot cards

- A 48-piece set to support children's understanding of place value
- Useful for comparing quantities and for modelling any two-digit addition or subtraction
- The pattern of dots encourages subitising
- Set contains enough equipment to make any number up to 999
- Colour compatible with the rest of our place value range
- Laminated for durability
- Largest piece 16.5 x 16.5cm, Spot diameter 1.3cm

NEW!

Arrow cards shown for example purposes only, available separately

Place Value Flip Stands

- Colour-coded for use alongside our range of place value resources
- Emphasises the effect of changing one digit on the value of the number represented
- Laminated for durability

PV18 HTO 8cm x 16cm £4.45
PV19 Th, HTO 8cm x 21cm £5.75

Place Value Fan - HTU

- Superb hundreds, tens & units place value fan
- Convenient & neat alternative to 'traditional' loose card sets, - no more lost cards!
- Enables numbers up to 999 to be created
- Laminated for durability
- Fan size: 21 x 4.5cm

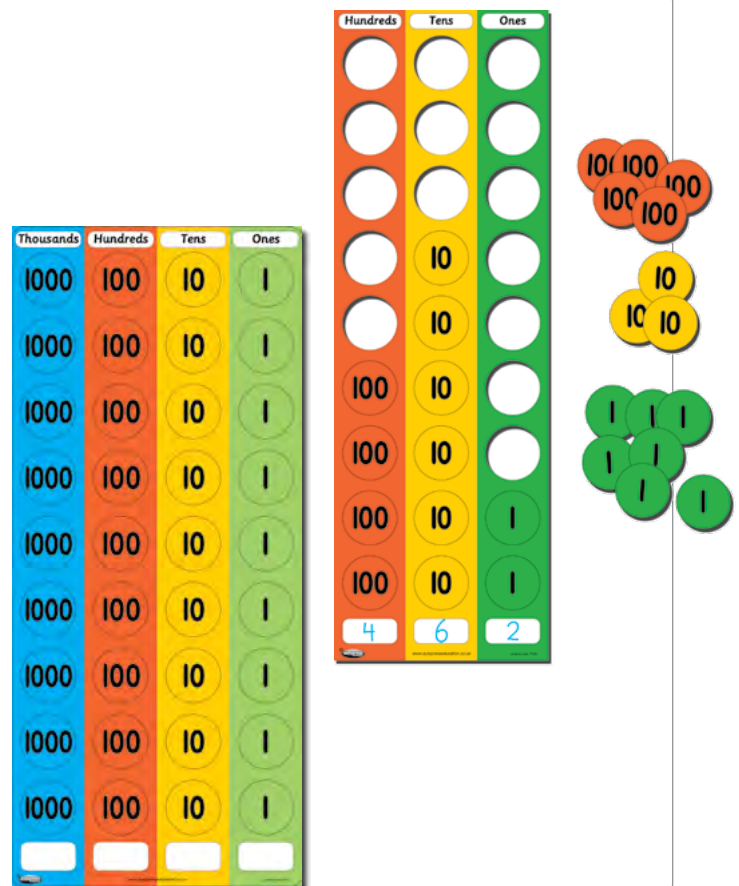

PV17 £3.75

Place Value Board and Counters

- Place value counters made of rigid whiteboard material
- The board provides a structure into which the counters fit when in use and also provides a neat recording and storage solution
- Laminated for durability with a dry-wipe surface
- Counters 26mm diameter

Hundreds, Tens & Ones (inc 27 counters) (10 x 30cm)
PV20 £2.00

Thousands, Hundreds, Tens & Ones (inc 36 counters) (14 x 30cm)

Sorting Bears

- 96 bears in 3 sizes and 4 colours
- Ideal for a variety of sorting and counting activities

Tub of 96 BP21 £15.00

Puppets

These puppets have been selected because they are particularly useful for mathematics teaching, although they are invaluable in other areas of the curriculum as well.

Rabbit in Lettuce with 6 Bugs

This puppet is great at hiding things - just watch the children's reaction when the rabbit magically appears! Items can either be hidden by the rabbit in the centre of the lettuce or can be hidden in any of the Velcro leaves. There are 10 leaves making this an ideal puppet to practice number bonds. Height 33cm

PP01 £24.95

Squawking Macaw

Children love this brightly coloured bird. He is great for getting the children to focus on counting sounds. The macaw also likes to collect things that have something in common. The collection can build up over the course of a week until children have identified the criteria and can begin to offer macaw new items to add to his collection, which he will either accept or reject. Height 45cm

PP03 £14.95

Frog Puppet

A frequent visitor to numeracy lessons, frogs are ideal characters for number line work with their ability to jump forwards and backwards. This frog puppet has a very wide opening mouth which also makes him useful for hiding digit cards, shapes, coins etc for the children to ask questions and make guesses about what he is hiding in his mouth today! Height 25cm

PP04 £12.25

Kangaroo Puppet

The Kangaroo uses its pouch to hide shapes, numbers, and objects which it can then give children clues about to help them to guess what is hidden. It is also great for counting in tens (nodding action), and in ones (hand action) and can therefore indicate any number to 100 and beyond for the children to guess and is great for jumping in tens and ones along a number line. A truly mathematically gifted kangaroo! Height 40cm

PP07 £12.50

Pet Puppets

These simple puppets are ideal for younger children. They are small enough for children's hands but also suitable for teacher use. These full bodied puppet are useful for counting activities - nodding their head as they count. They also have hand movement, so can clap out numbers as well.

Height 23cm

PP05 CAT £8.50

PP06 DOG £8.50

Wooden Numbers

- Pack of wooden numbers and signs (includes 0-9 twice and + - x ÷ =)
- Ideal for use as templates
- Heights 8cm approx

BP16 £13.45

Number Bean Bags (1-20)

- Numeral on one side, corresponding word and quantity of dots on reverse
- Odd numbers in burgundy, even numbers in green
- Supplied in a drawstring storage bag
- Approx 7cm square

CP07 £12.45

Cone Numbers

- Turn your own cones into numbered cones with these nylon sleeves
- Set of 10 in 5 different colours
- Great for encouraging outdoor activities involving ordering, counting and scoring

CN10 £15.00

Counting Castanets

- Brightly coloured characters for counting sounds
- Assorted designs
- Diameter 6cm

BP13 £2.50 each

Why Whiteboards?

Whiteboards have become an essential resource for the classroom, and are invaluable across all age ranges and subject areas.

Whiteboards enable the teacher to receive a response from every child, every time.

Children love using them, and they cost as little as £1 each (inc. free pen & bag).

Why choose Autopress whiteboards?

- Rigid & sturdy construction (double the strength of many other brands)
- Free pen & storage bag with each board (erasing felt available for just 20p extra)
- Double-sided

Plain Whiteboards

- Easy to hold, ideal for show-me activities.

Reading Rulers

Reading Rulers are coloured overlay filters and text highlighters and are particularly useful for reducing glare, improving focus and assisting tracking.

They are an invaluable support for those who suffer from visual stress and are supplied in a variety of colours so that users can identify the colour that suits them best.

DUO WINDOW READING RULER

- Narrow tinted strip for highlighting single lines of text
- Broad tinted strip for scanning ahead and for studying columns of figures etc
- Text marker (a solid line on the edge of the broad strip) for tracking down a paragraph
- Recommended for younger or less confident readers
- Pack of 10, each in a different colour
- Size 20.5 x 7.5cm approx

RR01 (10 PK) £8.95

PLAIN WINDOW READING RULER

- Fully transparent, uncluttered Reading Window
- Tracking line at 1cm for underlining
- Matt finish on one side
- Ideal for figures, diagrams, and more advanced readers
- Pack of 10, each in a different colour
- Size 20.5 x 7.5cm approx

RR02 (10 PK) £8.95

Initial Sounds Bean Bags

- Set of 26 bean bags showing a picture on one side and the corresponding initial sound on the reverse
- Supplied in a drawstring storage bag
- Approx 6cm square
